Using your GET units

Important Reminders

- As the account owner, you must initiate all direct payments and reimbursements from your GET account.

- Before you complete a direct payment request, please contact the college's student accounts office to verify the exact cost of tuition or room and board.

  - If you request too much money, the school could issue a refund, which may have tax consequences. (If we're notified by the school, we may reduce the requested amount to avoid an overpayment.)

  - If you request too little, you could pay late fees or your student could be dropped from classes.

- If your student will attend a Washington community or technical college, he should notify the registrar's office that he has eligible GET units when he registers for classes.

- Please allow **at least two weeks** for us to send your direct payment to the school. It's your responsibility to allow enough time for your payment to reach your school.
